

Cover Crop and Soil Health Workshop

The Lewis & Clark Conservation District will be hosting a Soil Health workshop on September 17, 2014 in the Helena Valley. Two local landowners who are utilizing cover crops in their cropping and grazing operations, Tim & Jim Dusenberry and Karl Christians, will be presenting. There will be a discussion on soil health, field tours and a panel discussion. Lunch will be provided.

A new technology, used by Jim & Tim Dusenberry, called BioActive Emmissions will be featured. It harnesses the exhaust from a tractor and injects it into the soil. It helps a producers increase profits by reducing the need for commercial fertilizer and increasing yield by enhancing soil health.

Where: Little Red Schoolhouse, Sierra Road, Helena, MT.

When: Check-in starts at 8:30

Contact Chris Evans at the Lewis & Clark Conservation District for more information. Call 406-449-5000 ext. 112 or email lccd@mt.net.
